## Major Change in Purpose of East Geramy's Black Pump Combine Announced.

Hence Burtschland, 31 Aug, ennounced an indefinite postp nement in the construction of the coking plants for the Black Pump Combine. Coke production was a major reason for the construction of this giant complex, planted to be the largest inflattrial enterprise in Rest Germany. According to the recent amazimorment, capacity for brown coal briggette production is to be increased instead, While the USSR will supply East Germany with come.

## Comment:

The economic justification for the production of coke from Bast Germany's brown coal has long eem in question. This change in plans may reflect both this consideration and the current need for fuels and power in East Germany in line with recent Soviet-led Bloc policy designed to emphasize those projects leading to the most rapid economic gains.
